I used AI to help me narrow down the list of options for my essay and to help me decide which frameworks to use. I did not use AI to draft my essay.	brainstorming	
For this assignment, I have used Artificial Intelligence multiple times. I declare that I have not used AI for independent thought or creating ideas that aren't mine. I declare that I have used AI for looking over my work. Additionally, I have used AI to help with grammar and spelling.	evaluating	summarising
Make sure your generation is within the context of discussion Make sure to reduce the use of overly verbose english Add references where applicable	brainstorming	
Generative AI was used to help lightly refine and brainstorm certain ideas regarding the relevant arguments for the essay. The essay does not include final outputs from the said AI model.	rewriting	
In the initial stages of planning this assignment, I made use of AI to assist me with the brainstorming and bringing together of ideas in a clear way. AI did NOT research or write any of this assignment for me.	brainstorming	
I used to summarise the arguments of some articles to determine whether they were relevant to my essay/whether to include them. I also used AI to check my essay was formatted and referenced correctly.	summarising	
In completing this essay, I used generative AI as a supportive tool to brainstorm topic ideas. All analysis, argument, interpretation and written content are entirely my own work and all sources have been properly cited in accordance with the institution's guidelines.	brainstorming	
I acknowledge that I have used generative AI tools in the creation and completion of this coursework.	writing parts	
I have used AI to help me ideate, research, and edit my work. However, all ideas are my own and work was originally written by myself.	rewriting	literature review
In the planning of this essay I used ChatGPT give me some ideas for content along with a plan to follow. The work in this is entirely my own outside of the plan and occasional AI evaluations, critiquing my work.	brainstorming	
I used AI in this assignment to summarise papers and refine my grammatical use.	summarising	rewriting
This is a declaration to confirm that I have used AI in some part of this assessment and essay. The use of AI to rewrite paragraphs and also for literature review.	rewriting	literature review
Generative AI model (blank) was used in this essay to generate an essay plan and to help brainstorm ideas for the assignment, furthermore, AI was used to explore some new topics and ideas that were not mentioned in the assignment brief.	brainstorming	literature review
I have used ai to grammar check my essay to ensure no silly mistakes have occurred	rewriting	
I used AI to help me brainstorm, to discuss ideas of format and layout and to check my work for errors such as grammar and spelling.	brainstorming	rewriting
I have used generative AI to evaluate and review my writing, however for the most part - the actual text is not generated by AI - I have written it myself.	evaluating	
Overall, in my essay I would like to declare that I used AI for some help with this essay. My use of AI was only for brainstorming ideas and getting it to review my work to ensure I had done good, I did not use it to write anything myself.	brainstorming	evaluating
I acknowledge the University's Generative AI-use Policy and can confirm I have not used generative AI in my submission.	no AI	
I declare not to use AI	no AI	
I decided not to use generative AI for any part of my essay brainstorming, writing and proofreading. I spent a few hours thinking about topics and approaches and immediately delved into my own research, mostly using online sources.	no AI	
I declare that I have used AI to assist with obtaining an essay plan, reviewing my work for grammatical mistakes and for summarising complex research papers. I declare that this piece is composed of mostly my work with the assistance of AI.	evaluating	summarising
AI was used to conduct a more thorough search for additional sources, and to give feedback on my original work. None of the written work was written by AI although advice was taken on board.	literature review	evaluating
AI-use declaration statement: I confirm that AI was used both in the summarising of important concepts for further understanding in the planning stage of this essay, and in creating appropriate references in the editing stage of this essay. I also confirm that the content is my own.	summarising	brainstorming
I have used AI to summarise my own notes taken to split them into specific categories that will be used throughout my essay. I have also used AI to summarise information from sources in order to be more efficient in my work.	summarising	
throughout my assignment I have used AI to elaborate and guide me within my assignment. I have however used it sparsely within...	brainstorming	
I have used an LLM to find some research papers, but all written work and structure is done by myself.	literature review	
I declare that AI has not been used in significant part in the formation of this essay. All work presented was produced by the author and AI was only used as a tool for idea exploration and for grammar and spellchecking.	brainstorming	
AI is a tool, whereby it's use should not be denied.		
Used Generative AI to help pick a topic	brainstorming	
An LLM was used to help with the literature search, writing style and to proof read the essay	literature review	evaluating
AI was used to help meet "X assessment standard" established by this institution.	evaluating	
AI was used in the essay writing process to help formulate initial topics, refine wording and reduce structure	brainstorming	
I used a generative AI tool to help brainstorm potential essay topics and to compare theoretical frameworks relevant to my chosen topic. The AI was used for idea development and research guidance only; all analysis, argument and writing were completed by me.	brainstorming	literature review
I have used AI sparingly to help with topic discovery but have completed the essay in my own words. I also used this to help develop ideas but did not use it to evaluate or write my essay.	brainstorming	
I can confirm no use of AI written text was included in my work. All written text has been written and edited by myself with no further assistance.	no AI	
Declaration of generative AI use. Generative AI was used to support learning around the topics of this essay.		
For this summative assignment, I employed the use of AI in several key instances, but not infringing instances. Initially, I used AI to help with brainstorming and idea generation for the kind of topic I was going to write about.	brainstorming	summarising
Complying with the AI-use declaration, I have used limited AI in my submission except to brainstorm topics/ideas to explore for the assignment. Elsewhere, AI has not been used.	brainstorming	
For this assignment AI was used in the following ways. Brainstorming an interesting topic, planning the structure of the assignment, help finding relevant source material for research, to overview my completed assignment as I wrote it.	literature review	brainstorming
During this essay I used AI to help brainstorm ideas looking at which issues were most important in the current climate. AI was not used for any of the resource gathering, writing, or debates presented.	brainstorming	
I have used AI as a research and brainstorming tool. the AI has not done any of the work a search engine could not do and has not generated any of my work	brainstorming	
throughout this piece of work AI was used for grammar purposes and to get ideas for arguments for and against	brainstorming	
I declare that I have used AI to aid with background research. It has also been used to refine sentence structure.	literature review	rewriting
In this essay, I have optimised my use of AI to help me in my decision to refine my question to a topic. I additionally used AI to help me in the planning process before I began writing this essay.	brainstorming	
generative AI was used in a limited way to support proof reading and improve the clarity of writing. The idea, research, analysis and final submission are my own work.	rewriting	
In line with the AI use policy I am declaring that I have used AI in the submission. It was only used for ideas generation and no other part of my essay used AI in any way	brainstorming	
Limited use of generative AI has occurred in this summative assessment, specifically to brainstorm initial ideas and to evaluate the finished essay for improvements prior to submission. It has not been used for any other part of the assignment.	brainstorming	evaluating

I have asked AI to suggest three relevant theoretical frameworks and help me build a cohesive argument to complete this essay.	brainstorming	
Declaration of Generative AI Use: I acknowledge using generative AI as an authorised, limited aid to help structure and refine this assignment. All core content, analysis, and final draft are my own original work.	brainstorming	
I can declare that I have used generative AI to assist my report writing when appropriate. In areas, you may find in-text citations, where I have made citations from AI, as expected.	rewriting	
In this essay AI was used to conduct an investigation on what topic my essay should be on, based on my interests. AI was later used to conduct an outline of things to make sure are included within my essay, this was for support.	brainstorming	
Generative AI was used only for brainstorming structure planning and clarity check all analysis, arguments and writing are my own original work	brainstorming	
I have used AI to summarize key points, explain concepts to me and help me decide which topics to write about.	summarising	brainstorming
I used AI to help brainstorm ideas, structure content, and improve clarity. Final work and analysis were my own. AI use is acknowledged in line with course policy.	brainstorming	
To advise that I used AI on a limited basis to brainstorm ideas and generate resources for my main argument. I can confirm that AI was not used to write any parts of the essay.	brainstorming	literature review
I can confirm that I used generative AI in the planning of this essay. I consulted the AI for ideas for the topic of my essay only. I did not use generative AI in any part of the writing, editing or literature review during this essay.	brainstorming	
Generative AI was used to assist with proofreading and improving the clarity of writing in this essay. The research, analysis, conclusions, and final submission are the author's own work.	rewriting	
I acknowledge my use of generative AI in this summative assignment. The purpose of my AI usage was to brainstorm initial ideas. The capacity in which I used AI was limited, this was to ensure fairness and transparency.	brainstorming	
I acknowledge that I have used AI in the development of this essay for... (Write what I used it for) (Usually universities provide you with a table and you have to tick what you have used it for)	brainstorming	
I used generative AI to aid my research and ideas, checking my understanding, and improving the quality and clarity of my work. All final content was reviewed, rewritten, and submitted by me. The use of AI has been acknowledged.	brainstorming	literature review
I used AI in order to brainstorm ideas and narrow down a topic, as well as for managing my time better. I did not use AI to write any of my essay, all analysis and critical thinking was my own.	brainstorming	
I used [AI service that I had used] for [list of tasks that I used it for, e.g. initial brainstorming and topic selection]	brainstorming	
I used AI as a tool to research and clarify any concepts I previously didn't understand	literature review	
Generative AI was used in the assignment to aid in the visual representation of content, review for spelling and grammatical errors. I attest that all work and research is my own and all writing is my own work.		
I have used AI to help decide a focus and plan where I am going to go with my ideas. I then used it again at the end to grade my essay and come up with feedback points based on the university marking criteria so I could develop my essay.	brainstorming	evaluating
For this essay I have used generative AI to generate a plan, review my work and provide a basic overview of the topic. AI has not been used to directly generate anything in my work	brainstorming	evaluating
I was very minimal in the use of AI		
I used Generative AI to refine the topic when developing my research question, and to assist in finding relevant academic literature to review for use in my assignment	brainstorming	literature review
During the preparation of this essay, I used an AI tool to brainstorm ideas, generate a structural outline and write some of the essay paragraph. I independently researched the sources, drafted most of the text and I take full responsibility for the content.	brainstorming	writing parts
I used an AI tool at two points during this assignment: to explore potential theoretical frameworks at the planning stage, and to identify weaknesses in my argument before finalising my draft. All writing, research, and analysis are my own.	brainstorming	evaluating
I acknowledge the use of generative AI tools, such as (Tool Name) to assist in the initial brainstorming of theoretical frameworks and in structuring my essay outline. The content and arguments presented in this submission are my own.	brainstorming	
For the purposes of this assignment AI has been employed to gather information and brainstorm. I have used AI to get a general overview of the topic as well as some basic information. I have not used AI for anything beyond that.	brainstorming	literature review
I declare to have used AI to help me brainstorm ideas that I then developed and expanded myself	brainstorming	evaluating
AI tools were used to assess and evaluate my writing by conducting grammar checks and corrections		
Regarding the use of AI, I used Microsoft Copilot when trying to comprehend certain theories, in which I asked it for help. Additionally, I also used it to conduct grammatical checks. Lastly, I used it to give me feedback on my writing.	evaluating	
I used AI to help brainstorm essay topics, develop an outline, and review the clarity of my writing. AI was also used to suggest improvements to sentence structure, but all research, analysis, arguments, and final writing were my own.	brainstorming	evaluating
In compliance with the instruction and regulation, I hereby declare that generative AI was used to refine my topic and for guidance on the structure of the essay.	brainstorming	
AI tool "Named of used AI" used to simplify long sources and check the spelling and English used in the essay. AI was used to brainstorm ideas for the essay including topics and any relevant information to look into on that topic.	literature review	brainstorming
I used generative AI to assist with brainstorming and structuring arguments in this essay. All writing, analysis, and final decisions about content are my own.	brainstorming	rewriting
My use of AI within this assignment is limited to ensure standards set by the university are met accordingly. I have not used AI to write my work or take part in aiding me form sentences and it has purely been used as a support tool.	evaluating	
I used generative AI to help discover potential essay topics and create an initial start to the research however I personally conducted analysis, final writing and evaluation independently.	brainstorming	literature review
I have used AI to help support in planning and research. It has also helped me to check for any errors	literature review	
The use of artificial intelligence in this essay was to provide broader research on the topic and to spell and grammar check the writing. No content generated with AI has been copied, or directly pasted in this essay.	literature review	
AI was used in this project to brainstorm and provide guidance on the structure of this essay. AI was also used to assess the quality of the essay as well as grammar check and to enhance readability of the essay	brainstorming	evaluating
I used AI to brainstorm ideas in which then I found research myself but had AI also look over articles for extra information to back my claims	brainstorming	literature review
AI was used for this assignment for the formulation and organisation of ideas, essay structure, and register-checking. AI was not used to (re)write this assignment in partial or in full. Any mistakes remain my own.	brainstorming	evaluating
In this essay I have utilised AI (specifically Google Gemini) to aid in the brainstorming of ideas and frameworks to use for those ideas.	brainstorming	literature review
I have also used AI to aid in the gathering of sources to improve my understanding on the topic and framework used in this assignment.		
Generative artificial intelligence (AI) tools were used in a limited and supportive capacity during the development of this assignment. Specifically, AI was utilised to facilitate initial brainstorming of potential approaches to the essay topic.	brainstorming	rewriting
The selection and interpretation of academic sources, development of arguments, critical analysis, synthesis of literature, and all substantive content presented in this assignment are entirely my own work.		
Full responsibility for the content, accuracy, academic integrity, and conclusions of this assignment remains with the author		
AI has been used to plan the structure of this essay.	brainstorming	writing parts
AI has been used to select a topic to evaluate in this essay.		
I hereby state that AI has not been used except within the bounds of the limited Generative AI-use Policy for Society, Innovation and Sustainability for the academic year 2025/26. The work submitted is my own and does not contain any plagiarism.		
I have used AI in this essay. AI use was limited to checking and formatting the essay and generating ideas.	brainstorming	
I have used Chat GPT to refine my writing through feedback and minor editing, all ideas and arguments are my own.	rewriting	evaluating
I used generative AI tools to support the planning and drafting stages of this assignment, including generating ideas and refining the wording of selected sections. All final content was reviewed, edited, and critically evaluated by me.	brainstorming	
AI is sufficient for me to create ideas and have opportunities to write a structured essay	brainstorming	
I used AI to brainstorm for my essay, draft an outline based on the key arguments I was making, and support the rewording of several of the highlighted arguments.	brainstorming	rewriting
I use Claude to check the grammar, structure of the draft. I, myself who re-wrote the suggestion, but not copy pasting directly from AI.	rewriting	evaluating
I use Gemini to generate the graph based on the data that I provided myself in Google Sheet.		
I use Claude to check the in-text citation and bibliography to ensure they match.		
For this assignment, generative AI tools were used for checking the grammatical accuracy of this text. They were not used to actually rewrite the text, just show me what a clearer sentence would look like, all the writing is my own.	rewriting	
The use of AI splits in the face of human thought and lives. It can only reproduce already created knowledge – why would I use AI when 1) I can read it myself and 2) the aim of research is to push the bounds of what has been known?		
The following submission is based on the intellectual property of the student. AI was used to support the literature review process and background information search. The argumentation is based on the student's own argument.	literature review	
Generative AI was utilised for the purpose of refining language and conducting literature review. AI was not used for the purpose of writing the essay but only to evaluate against the summative assessment question.	literature review	evaluating
For this Assignment I used AI to evaluate my choice in Topic and my choice in Frameworks which I made based on the lecture slides. Once I wrote my draft I asked AI to evaluate my draft and give me feedback based on assessment criteria.	evaluating	rewriting
I don't use AI, but for this hypothetical:	brainstorming	evaluating
I used generative AI to brainstorm ideas after choosing my initial topic. I also used AI to provide counterarguments to look for weaknesses in my thesis.		
I have used AI briefly to suggest ideas for the essay, and also to evaluate my essay for any syntax or content mistakes.	brainstorming	evaluating
N/A	no AI	
IA was used in this submission to revise grammar, synthesize paragraphs, and evaluate arguments.	summarising	evaluating
This text was revised using Grammarly to enhance grammatical accuracy, syntactic clarity, and overall precision of expression. The idea and brainstorming were done by using Claude. The tool was employed to support the revision process.	brainstorming	
I declare that I have used limited AI in my summative essay. I mainly used it for complementing and checking my references, making sure that I'm not missing out on important references, and for giving me suggestions of editing.	rewriting	literature review
I used AI to translate my rough ideas into an intelligible form. I also used it for proper structuring.	brainstorming	
AI was used to pick a topic from multiple options, craft an essay plan and provide feedback on the essay in accordance with the prompt and syllabus.	brainstorming	evaluating
It would be too long as I usually paste the whole prompt and responses.		
I used generative AI at multiple stages of this assignment. During the planning stage, I used it to brainstorm topic and framework pairings, using its suggestions to inform and refine my own ideas. Throughout the writing process, I used it to check for grammar and spelling errors.	evaluating	rewriting
I used the following Gen-AI programmes for the following purposes: ...		
AI was used only to assist in basic ideation and essay structuring.	brainstorming	
I would not attach a declaration. I don't think the way I use it needs reporting.		
My use of AI in this essay was limited to a back-and-forth conversation where we discussed the topic and the strength of my proposed arguments, finding holes and weaknesses, and strengthening them where I could. AI was not used to write any part of the essay.	evaluating	
I used AI for polishing my English, searching articles, summarizing reference articles to get a clue whether to read the full text or not.	literature review	summarising
Claude specific model was used to check outline coherence, reduce writing size and check grammar.	rewriting
